1 Repair Service policy

Units older than 10 years are considered no more repairable.

To know if your unit can be repaired, you may find the month/year of production through the plate attached to the rear cover. An example of this plate is shown in the figures below:

2 Repair costs

Units under warranty are repaired without charges unless hardware fault is due to manumission or external causes.

A quotation for repair units out of warranty will be provided you referring to RMA numbers.

Items for which estimate is not accepted or for which estimation has been expired (after 30 days and after one reminder) will be returned with a charge for investigation costs plus transport costs.

2.1 Shipments costs

Before shipping any good to Exor International you MUST request RMA from our website to obtain RMA number and shipping information as explained later into this document.

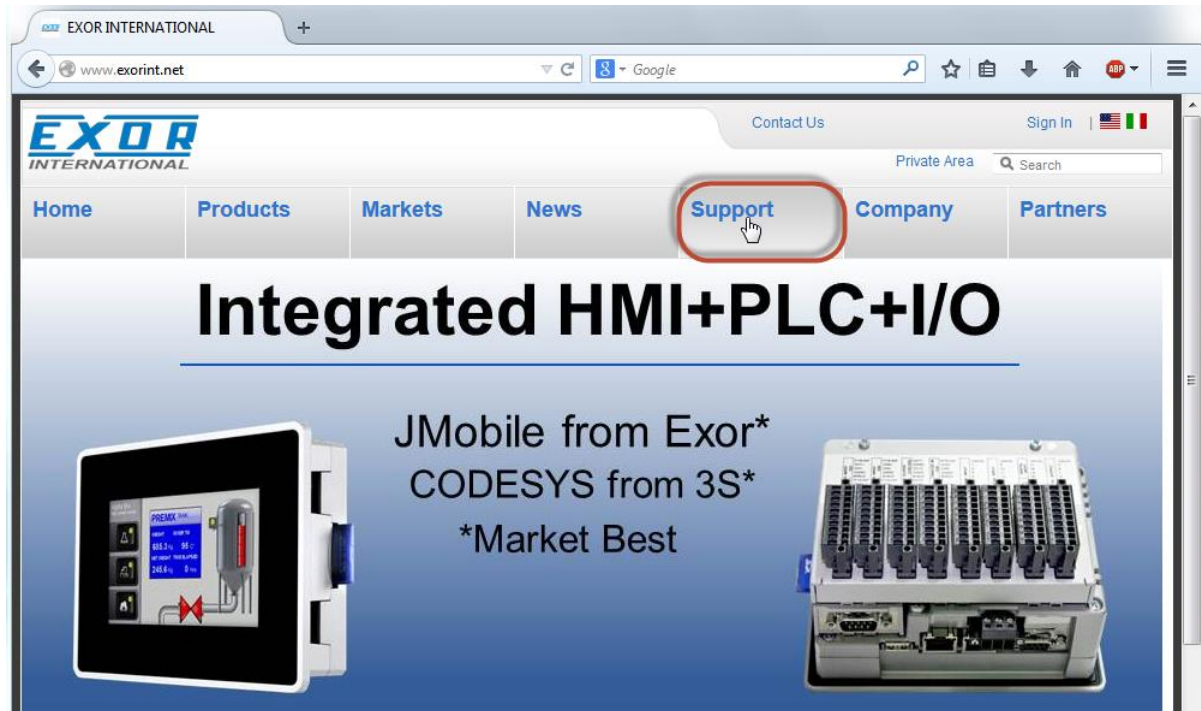

Shipment costs from you to Exor International are always at your charge.

For units under warranty: shipment of repaired goods from Exor International to you is free of charge.

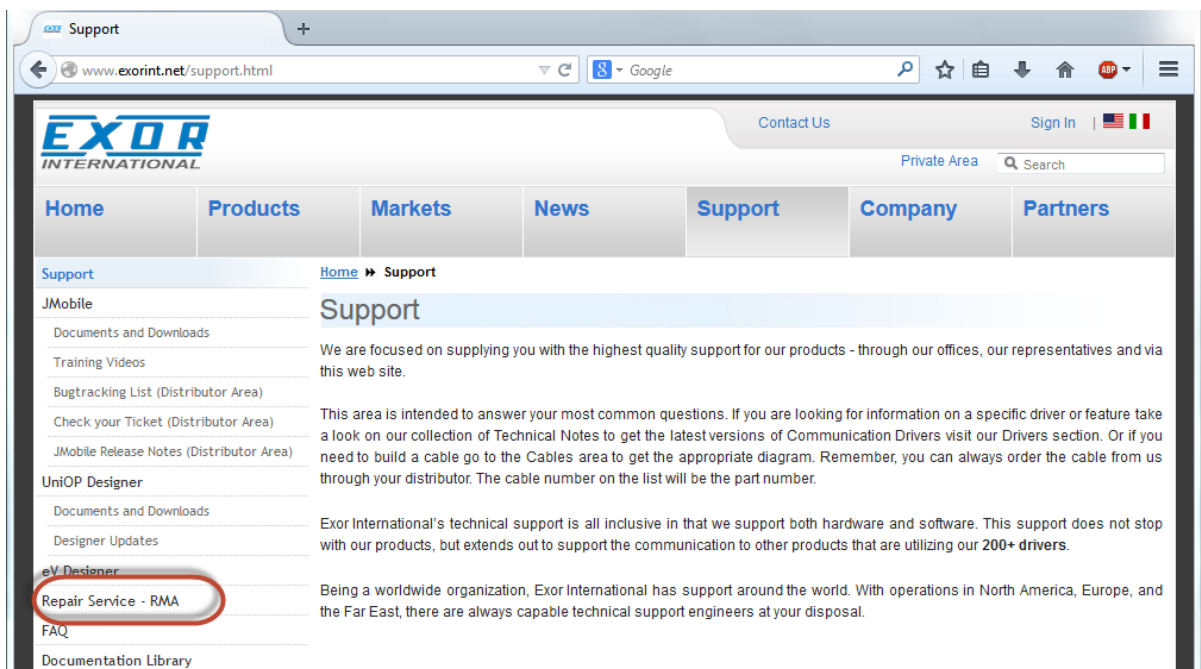

For units out of warranty: transport costs from Exor International to you will be charged.

3 RMA procedure

RMA procedure can be done accessing “Support” section of our website: www.exorint.net

Here you need to select “Repair Service – RMA” link on the left side-bar:

Into “Repair Service – Return Material Authorization” page, you will find all steps in order to complete the RMA request:

1. Sign In
2. Request an RMA
3. Check your RMA Status

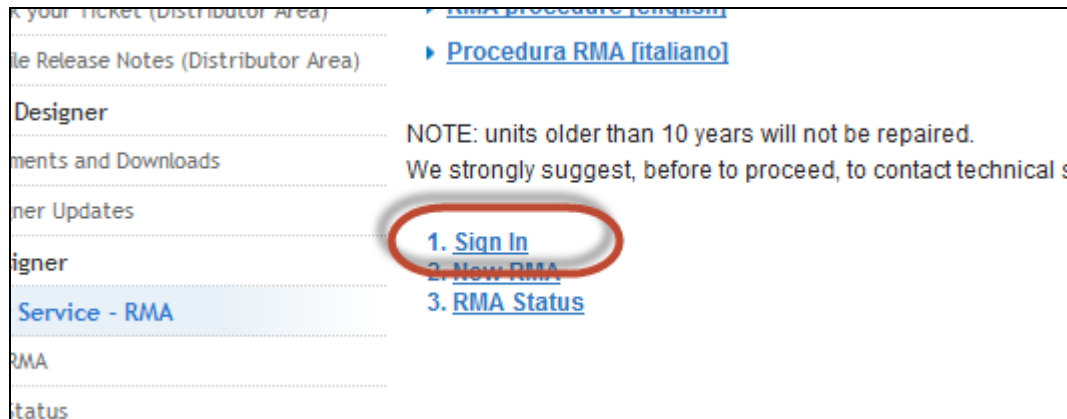

as showed into below figure:

All phases are explained into next chapters.

3.1 Sign In

First of all you must login with your Exor International credentials ID by click on link “Sign In” showed below:

Then you will access to “Sign In” page:

A screenshot of the 'Sign In to EXOR INTERNATIONAL' page. At the top, it says 'Please identify yourself:'. Below this is the title 'Sign In to EXOR INTERNATIONAL'. There are two input fields: 'EXOR ID:' and 'Password:'. The EXOR ID field has a placeholder text '(e.g. address@domain.com)'. To the right of the password field is a 'Sign In' button. Below the input fields, there is a link 'Forget your ID or password? | Help'. At the bottom, there is a section titled 'Don't have an EXOR ID?' with the text 'Signing up is easy.' and a 'Sign Up' link.

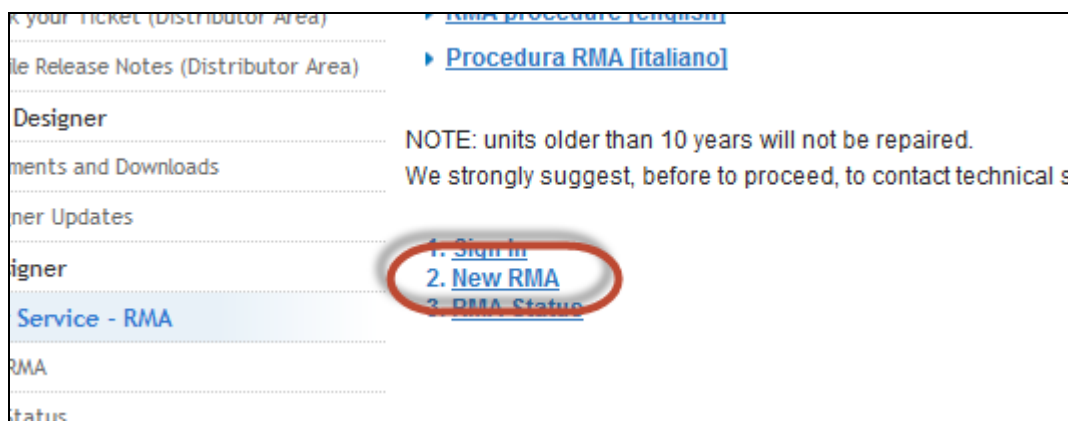

If you don't have an Exor ID you can register by “Sign Up” link as showed into above picture.

WARNING: Sign Up registration process can take up to 20 minutes. If you try to login before completion of registration process your access will be rejected.

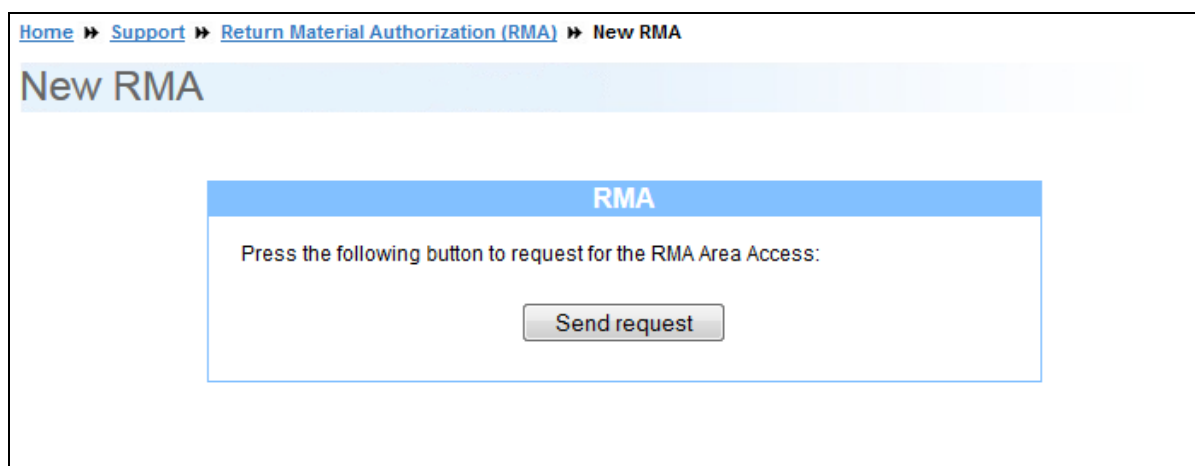

If Sign In succeeded you may proceed to request a new RMA.

3.2 Request a new RMA

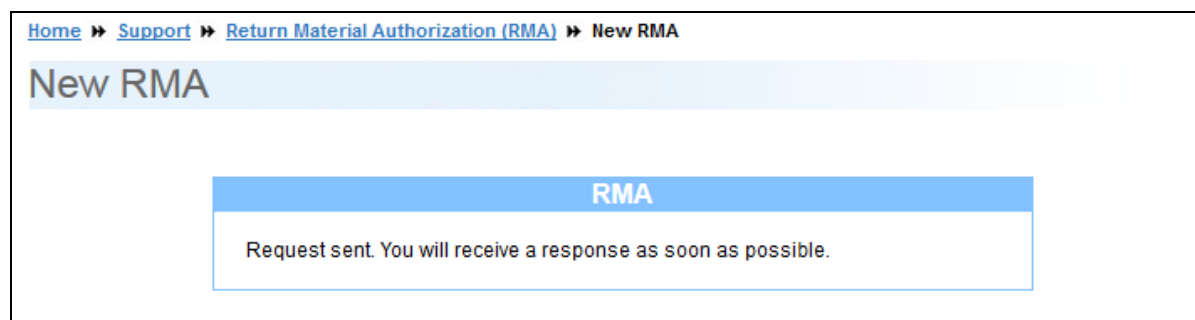

To request a new RMA you may press “New RMA” link as showed below:

By default, newly registered users on our website are not enabled to get direct access to RMA Area, so you need first to request access by click on button “Send request” as below:

Then you will receive confirmation that your access request will be processed:

and an email will inform you that you can access the RMA Area.

NOTE: Request to access the RMA Area is needed only for at the first time.

When your RMA Area access is granted, after click on “New RMA” link you will be able to fill the RMA form. As per image below, the system will show your references as per your Sign In:

- Your Company Name
- Your Name
- Your Last Name
- Your email address

RMA

Company: Acme inc

Ref. Name: John

Ref. Last Name Doe

Email Address: john.doe@acme.com

Products list:

+

Add an item

+

Add (no SN)

-

Remove item/s

🔍

SN	Model	Part number	Date
No documents found			

Submit RMA

Clear

Into “Product list” you may include all items for which you are requesting RMA. You can manage Products list by using left side buttons:

- Add an item
- Add (no SN)
- Remove item/s
- View details

3.2.1 Add an item

Using “Add an item” button you will be asked to type in the product Serial Number. Product’s Serial Number may be found on the plate attached to the rear cover. An example of this plate is shown in Chapter 1.

Item with Serial Number

Product SN:

Search

Product Model:

Part Number:

Registration Date:

If you own a Case ID, write it below:

Case ID (optional):

(max 30 characters)

Notes (optional):

(max 30 characters)

Product Fault:

(max 250 characters)

Submit item

Cancel

Once typed Serial Number and selected “Search” button, the system will propose you:

- Product Model
- Part Number
- Registration Date (as production lot)

So you can cross-check that Serial Number provided refer to the correct unit

Item with Serial Number

Product SN:

Search

Product Model:

eTOP507

Part Number:

+ETOP507U3P1

Registration Date:

03/2012

If you own a Case ID, write it below:

Case ID (optional):

(max 30 characters)

Notes (optional):

(max 30 characters)

Product Fault:

(max 250 characters)

Submit item

Cancel

Then you are required to specify the fault declaration into "Product Fault" field.

If Exor International Technical Support has been involved into analysis of the issue we kindly ask you to specify the Case ID number. This reference can be found into email subject exchanged with technical support team, for example: "Case ID: 201403502"

Once finished you can confirm addition with "Submit item" button and the item will be listed into Products List as per image below:
